

Ginguro Completes \$1,150,000 Private Placement

SUDBURY, ONTARIO – December 17, 2009 – Ginguro Exploration Inc. (TSX V:GEG) ("Ginguro" or the "Company") announced today that it has completed its previously announced non-brokered private placement, raising \$1,150,000 from the sale of 3,945,000 flow-through common shares and 5,638,333 units, both priced at \$0.12. Each unit consisted of one common share and one half of one non-transferable common share purchase warrant, with each whole warrant entitling the holder to acquire one common share at a price of \$0.15 until the date that is 18 months following the date of issue.

The placement included both the initial \$1,000,000 offering, as well as the previously announced \$150,000 over allotment, which the Company elected to place, to partially satisfy oversubscriptions on the offering.

Ginguro paid cash finder's fees of \$92,000 and issued 958,333 finder's warrants to registered dealers who arranged for purchasers of units and flow-through shares in connection with the placement. Each finder's warrant entitles the holder to acquire one unit (as described above) of the Company at an exercise price of \$0.12 until the date that is 18 months from the date of issue. All securities issued pursuant to the private placement are subject to a 4-month hold period.

Gross proceeds from the flow-through portion of the placement will be used to fund exploration on the Company's Pardo property and net proceeds from the unit portion of the placement will be used for working capital and for general corporate purposes.

Advancement of El Alto, the Company's Chilean Iron-Oxide Copper Gold ("IOCG") property, is anticipated to be funded by the \$5,000,000 earn-in by Canadian Continental Exploration Corp., as described in the Company's December 1, 2009 press release.

About Ginguro
