1. Nature of Operations and Going Concern

Inventus Mining Corp. (the "Company" or "Inventus") was incorporated under the Canada Business Corporations Act and is engaged in the business of locating and exploring mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. The Company commenced trading on the TSX Venture Exchange on May 5, 2015 under the new symbol IVS. To date, the Company has not earned any revenues and is considered to be in the exploration stage. The Company's registered office is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario, M5C 1P1.

The Company is in the process of exploring its mining claims and has not yet determined whether or not the properties will contain economically recoverable reserves.

These unaudited condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and will be able to continue to realize its assets and discharge its liabilities in the normal course of business. As at September 30, 2020, the Company had working capital of \$318,329 (December 31, 2019 - working capital deficit of \$73,951), a loss of \$992,865 for the nine months ended September 30, 2020 (loss of \$603,197 for the nine months ended September 30, 2019) and a deficit of \$25,935,053 (December 31, 2019 - \$24,942,188). In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern.

As is common with exploration companies, the Company is dependent upon obtaining financing to continue its ongoing and planned exploration activities and to cover administrative costs. The Company's ability to continue operations and fund its planned exploration and evaluation expenditures is dependent on management's ability to manage its expenditures and raise funds. The success of these endeavours cannot be predicted at this time. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. The unaudited condensed consolidated interim financial statements do not reflect adjustments to the carrying values and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments may be material.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements.

2. Significant Accounting Policies

Statement of Compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

2. Significant Accounting Policies (Continued)

Statement of Compliance (Continued)

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRSs issued and outstanding as of November 11, 2020, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2019, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2020 could result in restatement of these unaudited condensed consolidated interim financial statements.

New accounting policies

IFRS 3, Business combinations

Amendments to IFRS 3, issued in October 2018, provide clarification on the definition of a business. The amendments permit a simplified assessment to determine whether a transaction should be accounted for as a business combination or as an asset acquisition.

The amendments are effective for transactions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020. Under the new standard the Company expects a more likely probability that future transactions will be accounted for as asset acquisitions.

IAS 1 Presentation of financial statements

Amendments to IAS 1, issued in October 2018, provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS and other publications.

The amendments are effective for annual periods beginning on or after January 1, 2020 and are required to be applied prospectively. The adoption of the amendments had no impact on the Company's financial statements.

IAS 8 Accounting policies, changes in accounting estimates and errors

7. Stock Options (continued)

(1) The weighted average fair value of the 3,050,000 options granted in the period was estimated at \$0.13 by using the Black-Scholes option pricing model with the following weighted average assumptions:

Share price	\$0.15

Dividend yield	0%
Volatility	137.36%
Expected life	5 years

The options vest as to one-third after each of 6, 12 and 18 months from the date of grant.

Option pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Volatility is calculated as the variation of the Company's share price over a look back period equal to the expected life of the option at issuance. Changes in the underlying assumptions can materially affect the fair value estimates.

The Company had the following stock options outstanding as of September 30, 2020:

COVID-19

Due to the worldwide COVID-19 outbreak, material uncertainties may come into existence that could influence management's going concern assumption. Management cannot accurately predict the future impact COVID-19 may have on:

- Global gold prices;
- Demand for gold and the ability to explore for gold;
- The severity and the length of potential measures taken by governments to manage the spread of the virus, and their effect on labour availability and supply lines;
- Availability of essential supplies, such as water and electricity;
- Purchasing power of the Canadian dollar; or
- Ability to obtain funding.

At the date of the approval of these unaudited condensed consolidated interim financial statements, the Canadian Federal and provincial government in Ontario has not introduced measures which impede the activities of Inventus. Management believes the business will continue and accordingly, the current situation bears no impact on management's going concern assumption. However, it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of Inventus in future periods.

14. Proposed transaction

On July 2, 2020, Inventus announced that it has signed a binding agreement with the secured creditor and principal shareholder of Flag Resources (1985) Ltd. ("Flag") for the purchase of three mineral properties adjoining the 100%-owned Sudbury 2.0 Project (the "Flag Properties"). Inventus intends to acquire 100% of the Flag Properties in exchange for 5 million common shares of Inventus and a 2% NSR royalty interest. The closing of the transaction is subject to the conclusion of foreclosure proceedings vesting control of the Flag Properties to the creditor.

- (a) On October 5, 2020, 6,750 finders' warrants with an expiry date of January 17, 2021 were exercised for gross proceeds of \$709. As a result, 6,750 units were issued, consisting of 6,750 common shares and 6,750 warrants. Each warrant is exercisable into a common share at \$0.17 until January 17, 2022.
- (b) On October 16, 2020, Conquest Resources Limited ("Conquest") (TSX-V: CQR) announced that they had closed the previously announced acquisition of Canadian Continental Exploration Corp. The Conquest shares were received by Inventus on October 26, and as of that date were valued at \$1.5 million.
- (c) On October 19, 2020, the Ontario Superior Court of Justice approved the foreclosure against Flag Resources by its secured creditor, and ordered its mineral properties be transferred to the creditor. The previously disclosed transaction (see news release dated July 2, 2020) whereby Inventus will acquire 100% of the Flag properties can now proceed, and is expected to close during the fourth quarter of 2020.
