Inventus Mining Corp. Notes to Condensed Consolidated Interim Financial Statements Three Months Ended March 31, 2023 (Expressed in Canadian Dollars) (Unaudited)

1. Nature of Operations and Going Concern

Inventus Mining Corp. (the "Company" or "Inventus") was incorporated under the Canada Business Corporations Act and is engaged in the business of locating and exploring mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. The Company commenced trading on the TSX Venture Exchange on May 5, 2015 under the new symbol IVS. To date, the Company has not earned any significant revenues and is considered to be in the exploration stage. The Company's registered office is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario, M5C 1P1.

The Company is in the process of exploring its mining claims and has not yet determined whether or not the properties will contain economically recoverable reserves.

These unaudited condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and can continue to realize its assets and discharge its liabilities in the normal course of business. As at March 31, 2023, the Company had a working capital of \$283,623 (December 31, 2022 - working capital of \$353,160), net loss of \$69,537 for the three months ended March 31, 2023 (net loss of \$890,129 for the three months ended March 31, 2022) and a deficit of \$31,052,510 (December 31, 2022 - \$30,982,973). In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period.

As is common with exploration companies, the Company is dependent upon obtaining financing to continue its ongoing and planned exploration activities and to cover administrative costs. The Company's ability to continue operations and fund its planned exploration and evaluation expenditures is dependent on management's ability to manage its expenditures and raise funds. The success of these endeavours cannot be predicted at this time. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. The unaudited condensed consolidated interim financial statements do not reflect adjustments to the carrying values and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments may be material.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements.

2. Significant Accounting Policies

Statement of Compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRS issued and outstanding as of May 24, 2023, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2022. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2023 could result in restatement of these unaudited condensed consolidated interim financial statements. 2. Significant Accounting Policies (continued)

Accounting policies adopted

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

Clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period" and clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability making clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2023. The adoption of the amendments had no impact on the Company's unaudited condensed consolidated interim financial statements.

3. Short-term investment

The following table presents the changes in fair value measurements of financial instruments.

5. Deposit

The deposit of \$116,376 (December 31, 2022 - \$116,376) with the Ontario Ministry of Energy, Northern Development and Mines, as financial assurance for the Pardo advanced exploration closure plan, is fully refundable upon completion and reclamation of the proposed work or termination of the closure plan (See note 8).

Inventus Mining Corp. Notes to Condensed Consolidated Interim Financial Statements Three Months Ended March 31, 2023 (Expressed in Canadian Dollars) (Unaudited)

6. Lease obligations

At the commencement date of the lease, the lease liability was measured at the present value of the lease payments that were not paid at that date. The lease payments are discounted using an interest rate of 22.24%, which is the Company's incremental borrowing rate. The continuity of the lease liability is presented in the table below:

Balance, December 31, 2021	\$ 28,914
Interest expense	3,290
Lease payments	(32,204)
Balance, December 31, 2022 and March 31, 2023	\$ -

7. Loan payable

As part of the Canadian government-funded COVID-19 financial assistance programs, the Company received a loan in the amount of \$60,000. On January 12, 2022, the Government of Canada announced that the repayment deadline for CEBA Loans to qualify for partial loan forgiveness is being extended from December 31, 2022 to December 31, 2023 for all eligible borrowers in good standing. Repayment on or before the new deadline of December 31, 2023 will result in loan forgiveness of up to a third of the value of the loans (i.e., up to \$20,000 with respect to the CEBA Loans). Conversely, if any such loans are not repaid in full by December 31, 2023, they will automatically renew with a maturity date of December 31, 2025, subject to interest at 5% per annum, commencing on January 1, 2024. The CEBA loan is due on December 31, 2025. The loan is interest-free until December 31, 2023 and bears interest at 5% per annum thereafter. Repayment on or before the deadline of December 31, 2023, will result in loan forgiveness of up \$20,000. The benefit of the government loan received at a below market rate of interest is treated as a government grant. The difference between the carrying amount and proceeds received is the value of the grant of \$20,000. The Company recognized in income the value of the grant as it incurred the related expenses for which the grant was intended to compensate. As of March 31, 2023, the company valued CEBA loan at present value using a discount rate of 15% to maturity date December 31, 2023, and record accretion expense of \$961 in other expense.

8. Decommissioning accrual

The continuity of the decommissioning accrual is presented in the table below:

Balance, December 31, 2021	\$ 116,386
Accruals	-
Balance, December 31, 2022 and March 31, 2023	\$ 116,386

(i) During the three months ended March 31, 2022, 5,199,422 Common Share purchase warrants were exercised for proceeds of \$883,902 and fair value of \$204,326.

10. Stock Options

The Company has a formal stock option plan (the "Plan"). The Plan is referred to as a "floating" plan and provides for an aggregate number of shares reserved for issuance of up to 10% of the Company's issued common shares at the time of the grant of a stock option under the Plan. The number of options granted to any one consultant in any 12-month period cannot exceed 2% of outstanding shares. The aggregate number of shares reserved for issuance to any one optionee that is an officer, director or employee in any 12-month period cannot exceed 5% of the outstanding shares. The aggregate number of options granted to any optionee that provides investor relations service to the corporation in any 12-month period cannot exceed 2% of the issued and outstanding shares on a non-diluted basis at the time of the grant. Options granted under the plan vest in increments of 1/3 after each of 6, 12, and 18 months, from the date of grant.

The following table reflects the continuity of stock options for the periods presented:

	Number of Options	Av	ighted erage ise Price
